

Language Access Resource Binder

The Meaningful Language Access to Culturally Responsive Health Care Services (Language Access) incentive measure was created to connect Oregon Health Plan (OHP) members who communicate in languages other than English or are hard of hearing with Certified and Qualified health care interpretation (HCI) services. Historically, OHP members who communicate in languages other than English or are hard of hearing face barriers accessing health services, receive lower quality care relative to patients whose preferred language is English, and are at higher risk for medical errors. To combat the impact of these health disparities, UHA places a heightened emphasis on increasing the number of Qualified and Certified HCIs in Douglas County.

The Language Access Resource Binder provides guidance on requesting interpreter services, health care interpreter training requirements, scholarship opportunities, language proficiency requirements, and patient resources.
