

# Prior Authorization Grid Overview

## Important Information for ALL Providers

- Services not reflected on this authorization grid will require an PA. No PA required if UHA is secondary payer.
- All services must be medically necessary, subject to OHP regulations. If a service performed is non-funded by OHP (and is not an additional benefit offered by UHA), the claim will be denied as a non-covered service per OHP criteria (see Prioritized List at <http://www.oregon.gov/oha/HPA/CSI-HERC/Pages/Prioritized-List.aspx>).
- Please see our Early and Periodic Screening, Diagnosis and Treatment (EPSDT) criteria.
- UHA may not authorize services under the following circumstances:
  - The request received by UHA was not complete;
  - The provider did not hold the appropriate license, certificate, or credential at the time services were requested;
  - The recipient was not eligible for Medicaid at the time services were requested;
  - The provider cannot produce appropriate documentation to support medical appropriateness, or the appropriate documentation was not submitted to UHA;
  - The services requested are not in compliance with OAR 410-120-1260 through 410-120-1860.
- An approved PA is not a guarantee of payment. Payment is based on benefits in effect at the time of service, member eligibility and medical necessity.
- In-network providers must submit PA requests through CIM. All communications and notifications will be sent securely within CIM.
- Medical notes, prescription and supporting documentation must be submitted with the prior authorization (PA) request. These notes must be current within six months of the submission.
- Special Financial Arrangements (SFA) must be requested on the PA. In-network providers claims will be paid at their contracted rate unless otherwise indicated. Items without rate (manual) must be sent with a requested/billed rate or may be denied until more information can be provided.
- Any requests for authorization after 30 days from the date of service (90 days for Behavioral Health services) requires documentation from the provider that indicates why authorization could not be obtained within 30/90 days of the date of service. Prior authorization of services shall be subject to periodic utilization review and retrospective review to ensure services meet the definition of medical appropriateness.
